### Advanced Listing Search

Welcome to the My AmeriCorps "Advanced Search" page, a quick and easy way to find AmeriCorps national service opportunities that are suited to your particular skills, interests, and circumstances.

The simplest advanced search involves three steps: selecting the issue you are interested in, selecting a geographic area, and clicking the "Search" button.

To narrow down your search further, you have the option of entering additional information about yourself before clicking the "Search" button, such as the particular program you would like to participate in, any specialized skills you might have, and whether you are looking for full time, part time, or summer service opportunities. These optional questions appear toward the right side of the search form.

Clicking the "Search" button will take you to a listing of opportunities that fit the criteria you entered, including: the name and a brief description of the organization offering the position; the AmeriCorps program - State and National, VISTA or NCCC - that the opportunity is connected with; the start date of the service; and the location of the service opportunity. Further help on this Advanced Search page can be found by [clicking here](#).

Links from the page will take you directly to a detailed description of the available position, as well as to an online application form. Remember, though, that to apply for a position, you must first create a profile. But don't worry - if you apply for an opportunity but haven't created a profile yet, you will still be asked to create one as part of the application process.

**Enjoy your search!**

### AmeriCorps Birth & Beyond-Family Resource Aide

Child abuse and neglect is a major problem in Sacramento County, CA., and residents agree. Nearly 25,000 children at risk of child abuse are reported annually to Child Protective Services (CPS) and 4900 children are placed out of their homes. Young children under the age of 5 are at significantly greater risk of abuse. At particularly high risk are the 38,000 children ages 0-5 years of age residing in 9 neighborhoods in Sacramento County where data indicates that these neighborhoods account for 60% of CPS referrals, 65% of substantiated allegations and 67% of CPS child removals. Child abuse leads to higher probabilities of criminal behavior, suicide, drug use and other societal problems. Research identifies parental stressors such as isolation, poverty, lack of health and mental health resources, and limited knowledge of child development and parenting practices as underlying causes of child abuse and neglect. Parents are the most frequent perpetrators of child abuse. Neglect is the most frequently reported abuse and the most prevalent reason for removing a child from his/her home. Parents are more likely to commit child abuse when they are stressed due to being physically or emotionally isolated, lack of access to health or mental resources, face poverty or homelessness, are teen parents, are victims of domestic violence, are impacted by alcohol or drugs and have limited information on child development and parenting skills. Birth & Beyond serves as a bridge connecting parents in these 9 high risk communities to the many services they require and the individuals and resources that provide them through home visitation and family resource center programs. These programs provide parent support and parent education.
